EXPERIENCED GRADUATE LANDSCAPE ARCHITECT (BLOOMINGTON OFFICE)

The Bloomington office of BRCJ is seeking a creative graduate landscape architect with 2-5+ years of site design experience to work closely with our team of project engineers and designers in developing projects for academic, athletic, commercial, and residential facilities. This is a full-time position with an immediate start date.

Applicants must have a Bachelor or Master's degree in landscape architecture (or related field) from an accredited university. Professional Landscape Architecture license is a plus. This position will require strong communication, time management, and organization skills. Candidate must be able to show initiative, carry basic concepts and ideas to completion with minimal direction and guidance, and work efficiently and productively in a team-based organization. Additionally, site observation responsibilities, including field documentation and analysis of existing sites may be required. Working knowledge of AutoCAD and Civil 3D is a must, experience with 3D rendering strongly desired. Candidate must have excellent communication skills, both written and verbal.

Requirements:

- Punctual and Responsible
- Experience and proficiency with AutoCAD and Civil 3D
- Site grading, erosion control, drainage, and landscape design
- Excellent communications skills, both written and verbal
- Proven ability to manage time efficiently and meet deadlines

Other desirable skills include, but are not limited to:

- Client interaction & project scoping
- Code, Zoning Ordinance, and ADA review
- Field analysis and measuring of facilities and site elements
- Site layout and conceptual design
- Site grading and 3D modeling
- Familiarity with southern Indiana native plants and ecosystems
- Development and specification of planting schedules and layouts for a variety of site conditions
- Understanding and application of Low Impact Development and Green Infrastructure techniques
- Coordination with architectural and engineering disciplines
- Construction document production
- Shop drawing/submittal review
- Construction administration
- Ability to communicate and coordinate with regulatory agencies

Compensation: Competitive salary, health/life/vision/dental/disability insurance, paid vacation/holidays, 401k program, and bonus pay as profits and performance permit.
