Bledsoe Riggert Cooper James
LAND SURVEYING • CIVIL ENGINEERING • GIS

LAND SURVEY PARTY CREW CHIEF

The Survey Crew Chief will carry out a variety of survey field work including establishing Horizontal and vertical control, topographic surveying, property boundary surveys and construction staking. This position will involve working as a solo crew chief as well as part of a team. AutoCAD work, including survey drafting or calculations may be performed in addition to field duties.

Essential Job Functions

- Efficiently operate survey equipment including total stations, automatic levels, GPS equipment, and data collectors. Collection of data and review for accuracy.
- Ability to work as a one-person crew following directions from Project Manager.
- Ability to work as part of a crew and provide direction to field tech staff.
- Ability to perform basic AutoCAD functions.
- Perform a variety of tasks – ALTA/NSPS Land Title, boundary, control, topography, and construction surveys.
- Occasional travel and overnight stays.
- Interact with clients and understand client needs.
- Manual dexterity and willingness to work outdoors in a variety of weather conditions and terrain environments.
- Maintain accurate, legible, organized records in accordance with operations and work instructions.
- Adhere to all safety procedures and policies/procedures.
- Read and interpret deeds and construction plan documents.
- Self-motivated individual that takes initiative.
- Maintain and calibrate survey equipment to ensure accuracy and functionality.
- Be safety driven. Maintain a good driving record.
- Anticipate, prevent and solve problems (proactive vs. reactive) within his/her authority.

Experience Requirements

- Have a minimum of 3 years' experience surveying; at least 2 years in a crew chief position (preferred).
- Competent in solo surveying work and working as part of a crew.
- Experience with surveying equipment – GPS and robotic total stations; LiDAR and Trimble preferred but not necessary.
- Experience with UAV technology and/or commercial drone pilot is a plus
- Strong communications skills. Thorough and attentive to details. Able to prioritize and multi-task.
- Proactive and deadline oriented.
- Ability to read and interpret documents such as work orders, safety rules, operating and maintenance instructions, and procedure manuals.
- Valid driver's license with a good driving record.

Educational Requirements:

- High School Diploma or GED required.
- Associate or Bachelor's Degree in related field.
- LSIT preferred but not required.

Compensation: Competitive salary, health/life/vision/dental/disability insurance, paid vacation/holidays, 401k program, and bonus pay as profits and performance permit.
